## Recording of presentation

We ask that students record a 1-2 min summary and a maximum 10 min MP4 video presentation online at <https://www.xcdsystem.com/cim/abstract/index.cfm?ID=eM3DHPb>. The 1-2 min video will be used at the convention to help promote your poster and attract attendees to the young leaders pavilion. The 10 min video presentation will be posted on a virtual platform following the convention for all attendees to view. If you also wish to have your 10 min presentation featured on the CIM Academy (academy.cim.org), kindly sign the form in the submission folder. The recording is made on the same platform as the poster upload. It is an easy process where you will have a chance to view your recording, edit or delete, and record again.
